## WORK EXPERIENCE

**Data Engineer | Gosian Media LLC | South Carolina** Jun 2025 to Present

- Built a normalized PostgreSQL database on AWS RDS, migrating 30+ legacy spreadsheets. Developed Dockerized Python ETL from REST APIs and web sources, recurring dbt transformations, and automated validation. Replaced manual collection processes, saving 10+ hours each week and improving consistency.

**Data Analyst | Influencer Hub | United Kingdom** Nov 2023 to Jun 2025

- Analyzed influencer engagement, audience demographics, and campaign performance. Automated daily and weekly Python and Tableau KPI reporting for 15+ stakeholders, built social API data workflows, and supported campaign A/B tests, statistical significance analysis, and senior stakeholder presentations.

**Data Administrator / Operations Analyst | TapIn Platforms, Inc. | Miami, Florida** Oct 2021 to Nov 2023

- Managed relational databases with daily validation and record updates. Used Advanced Excel and SQL to identify trends, track user growth, and report operational metrics. Proposed a centralized knowledge base and fulfilled product and marketing requests, including SQL cohort queries.

**Operations & Data Assistant | Coefficient & NPC | Johannesburg, South Africa** Jul 2019 to Sep 2021

- Digitized legacy business records and validated CRM, inventory, and financial data. Supported data integration and market analysis for Inea Consulting and Renewable Market Watch outlook reports, and completed monthly reconciliations to resolve discrepancies.

## SELECTED PROJECTS

**Tech Job Market ETL Pipeline** | Python, PostgreSQL, Pandas, GitHub Actions - Automated daily public API hiring-trend extraction and staged results in a normalized PostgreSQL schema.

**E-Commerce Sales & Logistics Dashboard** | SQL, Tableau, PostgreSQL - Interactive Tableau dashboard used PostgreSQL queries to analyze 100,000+ records and identify regional logistics bottlenecks.

**Customer Churn Predictive Model** | Python, Scikit-Learn, Pandas - Supervised Random Forest model with feature engineering predicted subscription retention with 85% accuracy.

## TECHNICAL SKILLS

Python, SQL (PostgreSQL), Bash, AWS RDS, Docker, dbt, Tableau, Pandas, Scikit-Learn

## EDUCATION & CERTIFICATIONS

**University of Suffolk** | BSc (Hons) Computer Science, expected 2027
**UNISA** | Mathematics and Statistics Higher Certificate, Distinction, 2024

**Certifications**
Google Data Analytics Professional Certificate
IBM Data Engineering Certificate
