Vasilen Kanchev

Analytics Engineer

Porto, Portugal | Remote Europe | EU citizen | +351 931 673 151
vasilen.business@gmail.com | LinkedIn | GitHub | Portfolio

Data Engineer focused on SQL, dbt and reliable business reporting. Migrated 30+ spreadsheets to PostgreSQL on AWS RDS and automated workflows saving 10+ hours weekly. Brings operational context, KPI reporting for 15+ stakeholders and public finance-modeling projects.

Technical skills

Professional: Python, SQL, PostgreSQL, dbt, Docker, AWS RDS, ETL, API integration, data validation, Tableau, Excel

Portfolio: Dimensional modeling, finance reconciliation, DuckDB, data contracts, GitHub Actions, Databricks SQL port

Experience

Data Engineer and Chief Revenue Officer
Gosian Media LLC | Jun 2025 - Present

- Replaced 10+ hours of manual data entry each week by migrating 30+ spreadsheets to PostgreSQL on AWS RDS and building Dockerized Python/dbt pipelines with validation tests.
- Reduced monthly cost of goods sold by approximately $10,000 through department-level revenue and cost tracking and cross-training staff to cover two roles.
- Created onboarding SOPs and training manuals for an 80-person team; personally recruited and trained 30+ staff.

Data Analyst and Senior Supervisor
Influencer Marketing Hub | Nov 2023 - Jun 2025

- Automated KPI reporting for 15+ stakeholders with Python and Tableau, built ETL workflows from social media APIs, and supported campaign A/B tests.

Data Administrator / Operations Analyst
TapIn Platforms, Inc. | Oct 2021 - Nov 2023 | Full-time

- Maintained relational data through daily validation and updates; used SQL and Excel to report user growth and answer product and marketing data requests.

Operations & Data Assistant
CoEfficient & NPC | Jul 2019 - Sep 2021 | Part-time

- Digitized legacy records and completed monthly reconciliations across 40+ CRM, inventory and finance tables.

Selected projects

E-Commerce Finance Mart | SQL, DuckDB, dimensional modeling
Modeled 1.07M public retail invoice lines into a star schema and finance/customer marts. Reconciled kept and quarantined amounts to the source; added 14 blocking checks, an Excel workbook and a sales explorer.

HN Pulse | Python, dbt, DuckDB, GitHub Actions
Built a scheduled API-to-dashboard pipeline with 27 dbt data tests and model contracts that gate publication. GitHub Actions runs the live schedule; Airflow demonstrates local orchestration.

NYC Taxi Data Platform | Dagster, dbt, DuckDB
Processed 31.6M public taxi trips in a local pipeline with reason-coded quarantine, reconciliation and rerun/failure tests. Full-data benchmark conditions and sample CI scope are documented.

Education and certifications

University of Suffolk | BSc (Hons) Computer Science | Expected 2027

UNISA | Mathematics and Statistics Higher Certificate (Distinction) | 2024

Google Data Analytics Professional Certificate; IBM Data Engineering Certificate
